---

Thanks John. I'd be interested in hearing whether there are any related ecological incidents associated with MTDA's concern of Rozol misuse. Could you please follow up w/Amy and request that they communicate any related incidents to us directly? Thanks.

**Subject:** rozol sales in Montana

Hi Tom,

Please send me your estimate or actual numbers on the amount of rozol prairie dog bait sold into Montana since the registration approval, or if its easier, and estimate of the amount of product used during the last season.

We are having concerns raised on the use/potential misuse of the product by our state wildlife agency and animal researchers/advocacy groups, just so you know. We have not had any official enforcement cases related, but I will be encouraging these folks to communicate with us quickly and directly when they believe that there may be an issue. I'll keep you updated.

Thanks! Amy
